[REDACTED]

Attached is a heart-rending plea from DDP.

They ask us to accept 20 cubic feet of records in the Center without a Records Schedule and disposal date. These are [REDACTED] documentation items. [REDACTED] is through with them but CI Staff wants them kept. Now RID wants to get rid of them to make room. In fact [REDACTED] asked about this approval today because RID is hurting for space and he suggested this was my opportunity to show my confidence in the work and workings of Directorate Senior Records Officers.

[REDACTED] suggests we accept them until the new RID motorizing shelving is installed. Then return the 20 with 263 others if no schedule is produced by Bill and CI.

[REDACTED] say don't accept them "due to the limited space" and "Purge effort" and "we must be careful about accepting promises." [REDACTED] feels the new shelf problem won't come to a head until late December.

May I have your comment please?
